

<b>1. Identification</b> Product Identifiner Other means of identification	:	Argon Argon, Argon gas, Ar, UN 1006
Product use Supplier	:	Synthetic, Analytical chemistry Leland Limited, Inc. 2614 South Clinton Ave. South Plainfield, NJ 07080
Emergency calls		1-908-668-1008 (9-5 EST)
Hazmat Service Inc.	:	1-800-373-7542 (Domestic)
Contract #1264	:	1-484-951-2432 (International)
2. Hazards Identification		
OSHA/HCS status	:	This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910. 1200).
Classification of the substance or mixture <u>GHS label elements</u>	:	Gases under pressure – Compressed gas
Hazard pictograms	:	$\Diamond$
Signal word	:	Warning
Hazards statements	:	Contains gas under pressure; may explode if heated
		May displace oxygen and cause rapid suffocation
		May increase respiration and heart rate
<u>Precautionary statements</u> General		Read and follow all Safety Data Sheets (SDS'S) before use. Read label
	-	before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Close valve after each use and when empty. Use equipment rated for cylinder pressure. Do not open valve until connected to equipment prepared for use. Use a back flow preventative device in the piping. Use only equipment of compatible materials of construction. Always keep container in upright position.
Prevention	:	Use and store outdoors or in a well ventilated place.
Response	•	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Storage	:	Protect from sunlight. Protect from sunlight when ambient temperature exceeds 40C/104F. Store in a well-ventilated place.

Disposal Hazards not otherwise classified

: Dispose in accordance with all applicable regulations.

may displace oxygen and cause rapid suffocation.

: In addition to any other important health or physical hazards, this product

#### 3. Composition, Information on Ingredients

Substance/Mixture	: Substance	
Chemical Name	: Argon	
Synonyms	: Argon, Argon gas, Ar, UN 10	06
CAS Number	: 7440-37-1	
Content (vo%)	: 99.5 % or more	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### 4. First Aid Measures

Description of necessary first aid measures

Inhalation :	Remove exposed person to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular, or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin Contact :	Argon is harmless at atmospheric pressure. Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Eye Contact :	Argon is harmless at atmospheric pressure. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
Ingestion :	Since this product is a gas, refer to the inhalation section.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Inhalation	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin Contact :	Contact with rapidly expanding gas may cause burns or frostbite.
Eye Contact :	Contact with rapidly expanding gas may cause burns or frostbite.
Frostbite :	Try to warm up the frozen tissues and seek medical attention.
Ingestion :	Since this product is a gas, refer to the inhalation section.
Over-exposure signs/symptoms	
Inhalation :	No specific data.

Skin Contact	:	No specific data.
Eye Contact	:	No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	<ul> <li>No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.</li> </ul>

### 5. Fire Fighting Measures

Extinguishing media		
Suitable extinguishing media	:	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	:	None known.
Specific hazards arising from the chemical	:	Contains gas under pressure. In a fire or if heated, a pressure increase will occur and the container may burst or explode.
Hazardous thermal decomposition products	:	No specific data.
Special protective actions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Contact supplier immediately for specialist advice. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters		Fire-fighters should wear appropriate equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

#### 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Avoid breathing gas. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Ensure emergency procedures to deal with accidental gas releases are in place to avoid contamination of the environment. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for cor	ntair	nment and cleaning up
Small spill Large spill	:	Immediately contact emergency personnel. Stop leak if without risk. Immediately contact emergency personnel. Stop leak if without risk. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## 7. Handling and Storage

Precautions for safe handling	
Protective measures	: Put on appropriate personal protective equipment (see Section 8). Contains gas under pressure. Avoid contact with eyes, skin and clothing. Avoid breathing gas. Empty containers retain product residue and can be hazardous. Do not puncture or incinerate container. Use equipment rated for cylinder pressure. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. Use a suitable hand truck for cylinder movement.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in a segregated and approved area. Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep container tightly closed and sealed until ready for use. Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Cylinder temperatures should not exceed 40C (104F).

#### 8. Exposure Controls and Personal Protection

#### Control parameters

Occupational exposure limits

Ingredient name		Exposure limits		
Argon		Oxygen Depletion [Asphyxiant]		
Appropriate engineering : controls	Good general airborne conta	ventilation should be sufficient to control worker exposure to		
Environmental exposure : control	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.			
Individual protection measures				
Hygiene measures :		forearms and face thoroughly after handling chemical ore eating, smoking, using the lavatory and at the end of your		
	contaminated	echniques should be used to remove potentially clothing. Wash contaminated clothing before reusing. yewash stations and safety showers are close to the cation.		
Eye/Face protection :	when a risk a	ear complying with an approved standard should be used ssessment indicates this is necessary to avoid exposure to s, mists, gases or dusts. If contact is possible, the following		

			_	
		_		
		`		

Skin protection

protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Hand protection
 Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
 Body protection
 Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

- Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

#### 9. Physical and Chemical Properties

of Thyoroan and Onormoo		
Appearance		
Physical state	:	Gas [Compressed gas]
Color	:	Colorless
Molecular weight	:	39.95 g/mol
Molecular formula	:	Ar
Boiling/condensation point	:	-185.9C (-302.6F)
Melting/freezing point	:	-189.2C (-308.6F)
Critical temperature	:	-122.4C (-188.3F)
Odor	:	Odorless
Odor threshold	:	Not available.
рН	:	Not available.
Flash point	:	[Product does not sustain combustion.]
Burning time	:	Not applicable.
Burning rate	:	Not applicable.
Evaporation rate	:	Not available.
Flammability (solid, gas)	:	Not available.
Lower and upper explosive	:	Not available.
(flammable) limits		
Vapor pressure	:	Not available
Vapor density	:	1.66 (Air = 1)
Specific Volume	:	9.7087 ft <sup>3</sup> /lb
Gas Density	:	0.103 lb/ft <sup>3</sup>
		Daga E of 10

Relative density	:	Not applicable.
Solubility	:	Not available.
Solubility in Water	:	Not available.
Partition coefficient:	:	0.74
n-octanol/water		
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
SADT	:	Not available.
Viscosity	:	Not applicable.

### 10. Stability and Reactivity

Reactivity	: No specific test data related to reactivity is available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous polymerization	: Under normal conditions of storage and use, hazardous polymerization will not occur.

# **11. Toxicological Information** Information on toxicological effects

Acute toxicity	:	Not available.
Irritation / Corrosion	:	Not available.
Sensitization	:	Not available.
Mutagenicity	:	Not available.
Carcinogenicity	:	Not available.
Reproductive toxicity	:	Not available.
Teratogenicity	:	Not available.
Specific target organ toxicity	:	Not available.
(single exposure) Specific target organ toxicity	:	Not available.
(repeated exposure)		
Aspiration hazard		Not available.
Information on the likely	:	Not available.
routes of exposure		
Potential acute health effects		
Eye contact	:	Contact with rapidly expanding gas may cause burns or frostbite.
Inhalation	:	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin contact	:	Contact with rapidly expanding gas may cause burns or frostbite.
Ingestion	:	Since this product is a gas, refer to the inhalation section.

Symptoms related to the physica Eye contact Inhalation Skin contact ingestion	al, chemical and toxicological characteristics No specific data. No specific data. No specific data. No specific data.
Short term exposure	and also chronic effects from short and long term exposure Not available.
Potential delayed effects	Not available.
Long term exposure Potential immediate effects Potential delayed effects	Not available. Not available.
Potential chronic health effects -	- Not available.
General	No known significant effects or critical hazards.
Carcinogenicity	No known significant effects or critical hazards.
Mutagenicity :	No known significant effects or critical hazards.
Teratogenicity :	No known significant effects or critical hazards.
Developmental effects	No known significant effects or critical hazards.
Fertility effects	No known significant effects or critical hazards.
Numerical measures of toxicity	
Acute toxicity estimates	Not available.
12. Ecological Information	
Toxicity	Not available.
Persistence and degradability	Not available.

#### Bioaccumulative potential

Product/Ingredient name	Log Pow	BCF	Potential
Argon	0.74	-	low

Mobility is soil		
Soil/Water partition	: Not available.	
coefficient (K <sub>OC</sub> )		
Other adverse effects	: No known significant effects or critical hazards.	

#### **13. Disposal Considerations**

Discharge of Argon	Gradually release in open air.
Disposal of Cylinders :	If gas remains in cylinders, release gas with proper equipment and dispose of cylinders as incombustible waste. For empty cylinders, check for a puncture hole and dispose of as incombustible waste. Do not dispose of cylinders without first checking that all gas has been released.
14. Transport Information	
DOT / IMDG :	Argon, Compressed
Shipping Name	
UN Number :	UN 1006
Hazard Class (Division) :	2 (2.2)
Placard (When required) :	Nonflammable gas
Special Shipping : Information	See CFR 49, 172.101, 173.306 for exceptions of labeling.
IMDG / IMO : Proper Shipping Name	Receptacles, small containing gas (Gas Cartridge $<$ 50ml)
UN Number :	UN2037
Hazard Class (Division) :	2 (2.2)
Special Provision :	See Code 191
IATA : Proper Shipping Name	Receptacles, small containing gas
UN Number :	UN2037
Hazard Class (Division) :	2 (2.2)
Special Provision :	See Code A98

#### **15. Regulatory Information**

The following selected regulatory requirements may apply to this product. Not all such requirements are identified. Users of this product are solely responsible for compliance with all applicable federal, state, and local regulations.

U.S. Federal Regulations	:	None of this products components are listed under SARA Sections 302/304 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), or require an OSHA process safety plan.		
SARA 311/312 Hazardous Categories	:	Fire hazard Sudden release of pressure		No Yes

	Reactive	: No		
	Immediate (acute) health h	azard : No		
	Delayed (chronic) health ha	azard : No		
State Regulations	: Massachusetts	: This material is listed.		
	New York	: This material is not listed.		
	New Jersey	: This material is listed.		
	Pennsylvania	: This material is listed.		
	California	: This material is not listed.		
International Regulations	: Canada inventory	This material is listed or exempted.		
International Regulations	Australia inventory (AICS)	-		
	,	This material is listed or exempted.		
	China inventory (IECSC)	This material is listed or exempted.		
	Japan inventory	Not determined.		
	Korea inventory	This material is listed or exempted.		
	Malaysia inventory (EHS Register)	Not determined.		
	New Zealand inventory of	This material is listed or exempted.		
	Chemicals (NZIoC)	This motorial is listed or everyted		
	Philippines inventory (PICCS)	This material is listed or exempted.		
	Taiwan inventory (CSNN)	Not determined.
